La Frontera Square
Round Rock, Texas

Mircom®

At a Glance

La Frontera Square by Toni Properties is a high-end apartment community located in Round Rock, Texas, just outside of Austin. Nestled in the heart of Round Rock's entertainment and shopping district, La Frontera Square offers residents luxurious units along with a full range of amenities in a thriving community.

Challenge

Offering high-end living to residents requires having a high quality telephone entry system that will keep up with user demands while simultaneously providing safety and security for residents.

The telephone entry system originally installed in La Frontera Square was consistently undergoing maintenance; panels were being frequently replaced and the system could not withstand its intended use. The original installation proved to be costly over time and inefficient.

The Mircom Solution

When choosing a security system, the customer established three important factors that go into the decision making process: reliability, system features, and ease of use for the end users. Having worked with Mircom for a number of years on successful projects in the past, WW Electronics Solutions trusted Mircom as the preferred vendor to retrofit La Frontera Square with a solution that will stand the test of time.

The existing system at La Frontera Square was replaced with Mircom's TX3 Telephone entry system. A total of 16 telephone entry panels were installed.

The new system was also able to be installed with individual IP addresses for each panel; this removed the need for costly cable installation by integrating into the existing IP infrastructure, while adapting to the existing cable installation for use with the installation.

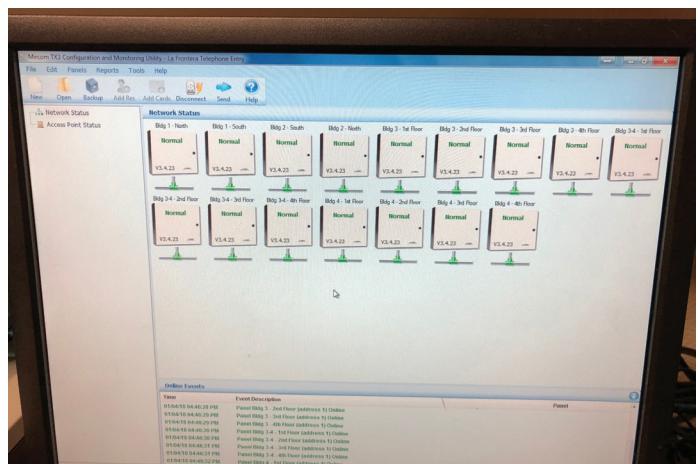

[Mircom is] our preferred [vendor] for telephone entry."

*Richard Wilkinson
CEO, WW Electronics Solutions*

System Summary

(15) TX3-200-8U

(1) TX3-200-4U W/ TX3 Software Platform

Installation and Team

Mircom teamed up with our Engineered Systems Distributor (ESD) WW Electronics Solutions for the retrofit of this project.

Located in Dallas, Texas, WW Electronics Solutions' proximity to the project site proved to be invaluable in the timely and efficient completion of this project. Mircom technical support representatives were available for troubleshooting and support during the retrofit, ensuring the customer received full attention and assistance when it was most needed.

Conclusion

"[Customers] like the user interface of the software and how easy it is to use."

Richard Wilkinson

By installing Mircom's TX3 telephone entry system, La Frontera Square now has a reliable and stable system that mirrors the high-end community in which it is housed and keeps up with user demands.

The retrofit at La Frontera Square is another example of how Mircom is making buildings worldwide safer, smarter and more livable.

About the Mircom®

Founded in 1991, Mircom is a global designer, manufacturer and distributor of Intelligent Building Solutions. Reaching customers in over 100 countries worldwide, Mircom's portfolio includes: fire detection & alarm, communications & security, mass notification, building automation and smart technologies. Mircom's vision is to make buildings worldwide safer, smarter, and more livable.

Our global network of dedicated Sales and Service Offices, known as Mircom Engineered Systems, allows us to be a full solution provider. Through Mircom ES, we're able to provide and fully service our line-up of innovative and advanced solutions which are scalable to satisfy diverse user demands, from small & mid-size buildings to the world's most complex applications.
