

Product Announcement Fire Alarm Control Panels

PA-FCP-001 February 1st, 2019

NEW FX-3318 Single Loop Intelligent Panel – USA

We are pleased to announce the launch of the new FX-3318 Single Loop Intelligent Addressable Panel.

The FX-3318 has uncompromised features and has the look and feel of larger Mircom panels as menus follow standard Mircom panels to reduce learning.

The FX-3318 is a great alternative to replace conventional systems. The trim ring dresses the panel for easy retrofits or new installs.

The FX-3318 supports a wide range of AP devices (up to 318 devices) and or legacy CLIP devices (up to 198 devices).

- Complete with main board, power supply, transformer and a 4x20 LCD screen in a red enclosure
- Includes 4x20 LCD with 80 characters
- Supports up to 7 annunciators
- Supports sync protocols from major manufacturers
- Four Power Limited Class B (Style Y) or Class A (Style Z) NAC circuits
- Built-in Dialer Module for remote monitoring

Product	Description	List Price
FX-3318	Single Loop Intelligent Addressable FACP	\$1500.00 (USD)

Please be advised that we will have inventory early next week in the Niagara warehouse.

For more information about the FX-3318, such as sell sheets, data sheets and installation instructions please refer to the website : <https://www.mircom.com/product-listing/fire-alarm-detection/addressable-fire-alarm/product/view/8/333>.
