

## PRODUCT INTRODUCTION

### **MGC-FACP-CFG-KIT1** **Fire Alarm Control Panel Configuration Kit 1**

November 15, 2018

The Mircom Group of Companies is pleased to announce the availability of the MGC-FACP-CFG-KIT1 Fire Alarm Control Panel Configuration Kit 1 in conjunction with the release of Mircom FlexNet v12 and Secutron MMX v12.

This kit includes all of the necessary cables and connectors necessary to configure all Mircom and Secutron Fire Alarm Control Panels and Voice Evacuation systems.

In addition to FlexNet / MMX, the contents of this also include cables for the configuration of:

#### Mircom

- FA-300
- FX-350
- FX-2000
- FX-3500
- QX-mini
- QX-5000
- UDACT-300

#### Secutron

- MR-2300
- MR-2350
- AudioMax

This kit is also used for connecting the MGC Firmware Update Wizard to a Flex-Net™ / MMX audio controller or loop controller.

For more information about the MGC-FACP-CFG-KIT1, please refer to the Mircom website.

Also available are replacement parts for the three key items in the kit.

RPL-MD-803 - UIMA interface

RPL-MD-1172 - UIMA2 interface

RPL-MD-1211 - 10 to 8 Pin Adapter
