### New “Bright White” Addressable Modules – Canada

**TO: Canadian Sales**

This is to inform you that the face plate for addressable modules has been updated to a new brighter white. The new white color is similar to RAL 9003 and matches System Sensor L-Series AV devices.

Model numbers will remain the same. The new white product packaging will be identified with a red, circular label. In addition, new unmarked bulk packs will be available to update modules in either direction, the new brighter white or traditional ivory. As a part of this update, the SMB500 backbox in ivory color is being transition to the new bright white SMB500-WH.

Below are the model numbers for the modules that are now shipping with “Bright White” colour:

Item Number	Description
MIX-M502MA	INTERFACE MODULE CLIP
MIX-500MA	MONITOR MODULE CLIP
MIX-500SA	SIP. CONTROL MODULE CLIP
