- Mounted using one of the BB-1000 or series semi-flush enclosures.

Description

The RAM-3318-LCD Remote Annunciator is used as a component of an FX-3318 Fire Alarm System. It provides an exact mimic of the FX-3318 display at a remote location.

The display is four lines, 20 characters back-lit alphanumeric LCD. It displays information regarding the panel, its circuits, and devices. An on-screen cursor is controlled by the cursor buttons for menu selection and control.

Electrical Ratings

Power Limited Nominal Voltage: 24 VDC	
Current Consumption:	
Standby:	70 mA
Alarm:	100 mA

Some enclosures require the installation of the CH-1074B, included with the RAM-3318-LCD
