

TOUCH SCREEN SURFACE MOUNT TELEPHONE ACCESS SYSTEM

TX3-TOUCH-S15-A

Description

Mircom's TX3-Touch Series Telephone Access Systems are the most advanced visitor management and security systems available on the market today.

The TX3-Touch Series surface mount unit is designed to provide primary resident/visitor access control for condominiums, apartment buildings, office buildings and industrial buildings. The TX3-Touch Series allows building residents to communicate with visitors and grant or deny entry into a complex. The surface mount unit can be fully customized to display residential or commercial building directory listings as well as promotional or site specific information. In addition the TX3-Touch Series has provisions for a built-in camera, postal lock, card access control and elevator restriction.

The TX3-Touch Series surface mount unit is constructed of a heavy gauge stainless steel and is designed for indoor applications. The TX3-Touch Series user interface is built on top of the Intel Atom architecture running a reliable and proven windows based operating system to offer the most feature rich system on the market. For ADC/NSL telephone interconnectivity, the system uses Mircom's reliable interface modules sold to thousands of buildings around the world for over 25 years.

Features

- 15" full color industrial grade touch screen display that is viewable in direct sunlight
- TCP/IP capability by adding optional TX3-IP module
- · Constructed of heavy gauge stainless steel
- Optional built-in camera, postal lock and card access controller
- Multiple panels can be connected on a shared database for up to 63 nodes of complete card access and facility management
- Four fully configurable themes (color & font), 4 preset themes, and 4 screen layout templates
- Configurable Welcome Screen
- Three built-in keyboard layouts (Full QWERTY, Full QWERTY + Num pad, or Simple)
- Standard wiegand interface for card access
- Intuitive call interface using one call button or onecall button per resident
- Voice or video based help menu for ease of use
- · Optional e-mail resident feature
- Supports both AutoDialer (ADC) and No Phone Bill (NSL)
- · Elevator restriction capability
- Programming via built-in USB or Ethernet ports; available modem and COM-to-RS485 modules for hardwired setups
- Remote Desktop capability to fully control programming and setup
- Revenue generating advertising module available
- Whisper quiet fanless operation
- 150 watt built-in premium speakers and efficient and robust Class-D stereo amplifier
- Easily load media content via built-in USB interface.
 Supports JPG, GIF, SWF, WMV and MPEG file formats
- Fully removable lightweight inner chassis for easy maintenance
- Industry Canada and F.C.C. approved

Applications

- Provides resident/visitor access control for buildings such as condominiums, apartment buildings, office buildings, gated communities and industrial buildings
- Designed for indoor applications that require a surface mount visitor management system
