AT1-GARD SINGLE DOOR STANDALONE KEYPAD 　　39201170

Description

The AT1-Gard single door keypad brings strength and reliability to a price sensitive market. The AT1-Gard is offered in a 3 x 4 surface mount design and includes tamper proof mounting with the supplied hardware.

All metal construction with anodized graphics guarantee that the AT1-Gard will survive in the most harshest environments.

The AT1-Gard is a single door solution utilizing a multi-function Piezo keypad capable of storing up to 200 User Codes, as well as a Master Code for administration.

The AT1-Gard can be utilized in a wide range of environments. This includes labs, health clubs, public pools, condo and townhouse shared areas, garage doors, parking and secure gate areas, marine and dock areas, as well as any location that needs a secure and rugged keypad for high traffic areas.

Features

- 200 PIN users
- Smooth attractive design, with anti-vandal/anti-weather casing
- One piece, solid metal design with no moving parts
- Highly-sensitive Piezoelectric metal keys
- Multiple user levels: Normal, Master, and Programming
- Supports up to 8-digit PIN codes
- Code search feature for easy maintenance of user codes
