## VIDEO INTERCOM MOBILE APPLICATION · MiENTRY+

Streamline Building Access with Enhanced Security

Description

MiENTRY+ is a mobile app designed to simplify and secure access for residents and visitors in both residential and commercial buildings. By integrating advanced video and audio capabilities, MiENTRY+ allows residents to manage entry access conveniently and securely from their mobile devices.

Features

Effortless Access Control for Residents:
- **Identity Verification**: Residents can verify the identity of guests through live video and audio, ensuring security and peace of mind.
- **Secure Building Access**: Quickly and securely grant entry to verified visitors.
- **Temporary QR Code Generation**: Generate a unique QR code for temporary visitor or courier access.*

Seamless Mobile Compatibility:
- **Available on iOS & Android**: MiENTRY+ is available for download from the Google Play Store and App Store.
- **User-Friendly Interface**: Designed for simplicity and ease of use.

Enhanced Communication:
- **Audio and Video Calls**: Enables clear two-way communication, making interaction with visitors smooth and intuitive.
- **Missed Call Log**: Residents can review all missed or answered calls at their convenience.

Efficient and Compatible:
- **Data Efficiency**: Uses minimal mobile data, ensuring the app is cost-effective and efficient.
- **Compatible with TX3 Series Panels**: Works seamlessly with TX3 touch panel systems.
- **Subscription Requirement**: Requires an active service subscription through MiConnect.

* QR code scanner is available with TX3-T series panels, such as TX3-T10.
