

Features

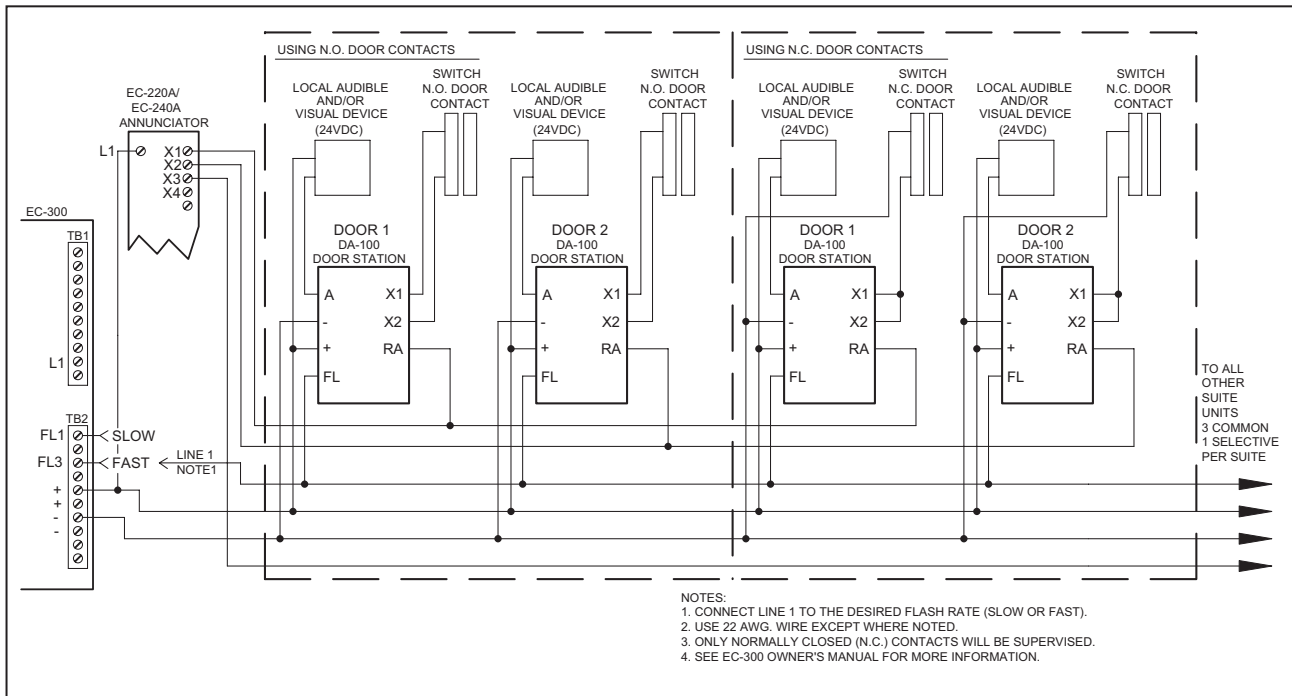

- Keys which are difficult to duplicate
- Form C, 3 ampere relay
- Single gang, stainless steel face plate
- Yellow Status Indicator
- Red Armed Indicator
- Local audible and visual output provided (24VDC)

Mircom's DA-100A Door Alarm Station provides peripheral exit security for any facility. Each station can monitor normally open (N.O.) or normally closed (N.C.) contacts. Ideal for nursing homes, the DA-100A can interface with Mircom's Emergency Call Systems. A Central Monitoring Panel consisting of the EC-300 Call Receiver Module, EC-220A or EC-240 Annunciator Module.

Module shall provide audible and visual annunciation for a multitude of DA-100A stations. A 24 VDC output is provided on each station for local audible and/or visual indicators.

A durable design, the DA-100A is made from stainless steel and uses solid state electronics.

Wiring Diagram

Ordering Information
