

MICARE BEACON WITH BACKUP BATTERY

NC-211

Features

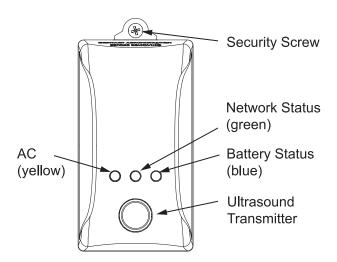

- Extended Range (75ft line of sight).
- · Internal backup battery.
- Fast and easy installation. Device plugs into any 120 VAC outlet.
- · Quickly extends wireless mesh network.
- · Unique ultrasonic locator.
- · Supervised operation.
- 3 LED status indicators.
- Security tab / screw (not for use in Canada)
- Low backup battery notification.

Description

The NC-211 MiCare Beacon can work as a stand-alone router or in conjunction with the NC-2000 Resident Unit in an advanced nurse call solution. It couples mesh networking technology with ultrasonic signaling to accurately identify and respond to emergency events. Forming the backbone of the highly reliable 802.15.4 wireless network, this network provides a self-forming, self-healing "mesh" type transport when routing messages to/from the MiCare Coordinator.

The simple 120 VAC plug-in NC-211 is designed to easily extend your mesh network, providing both improved wireless range and ultrasonic locating.

The NC-211 Beacon connects with the MiCare Central Software to provide extended coverage.
