

PHOTOELECTRIC SMOKE SENSORS

MIX-4011 / MIX-4011-ISO

Description

The MIX-4011/MIX-4011-ISO is a hardwired photoelectric smoke detector engineered to deliver early warning of fire conditions while minimizing false alarms. It employs advanced software algorithms to differentiate between genuine threats and commons nuisances. The MIX-4011/MIX-4011-ISO can identify fires caused by contemporary synthetic substances such as polyurethane foam, thereby reducing risk of extensive damage.

Designed to be integrated with MGC compatible control panels, the MIX-4011/MIX-4011-ISO enables high rates of bi-directional communication for reliable oversight and fast response in the event of an emergency. Its compatibility with the full range of MIX-4000 series devices allows for flexible configuration and expansion, offering comprehensive coverage for spaces of any size. Additionally, the isolated version (MIX-4011-ISO) features a bidirectional short circuit isolator for an added protection against wiring faults and uninterrupted operation.

The detector comes with 360° visibility provided by dual LED indicators and a dust cover for added protection while shipping and installation. It can be mount on the wall or ceiling by using any of the MIX-4000 standard or specialty bases. The detector is addressed and programmed using the MIX-4090 hand-held device. Addresses can be selected from a range of 1-240.

The MIX-4011/MIX-4011-ISO is listed to comply with UL 268th 7th edition CAN/ULC S529 Rev 4th.

Features

- Designed to meet UL 268th 7th edition and CAN/ULC S529
 Rev 4 standards
- Utilize advanced software algorithms to differentiate between genuine fire alarms and false alarms
- Protection against nuisance alarms caused by dust, insects or other debris
- Multiple sensitivity settings can be selected through the FACU
- Dual LED indicators, offering 360° visibility with distinct colors for Alarms and Troubles
- Link up to any combination of 240 MIX-4000 series devices on a single SLC loop
- Compatible with the full series of MIX-4000 standard / specialty bases, input and control modules
- Sensor is easily addressed through the hand-held device programmer (MIX-4090)
- Listed for both wall and ceiling mounting using compatible bases
- Magnet test option available to help with commissioning and maintenance
- Isolated version (MIX-4011-ISO) equipped with a bidirectional short circuit isolator.
- Standard 4" and 6" bases have a detachable tab for labelling device address
- · Remote Output can be controlled by the FACU
- · Low standby current
- Supports wire sizes ranging from 12 to 22 AWG

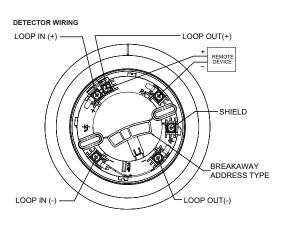

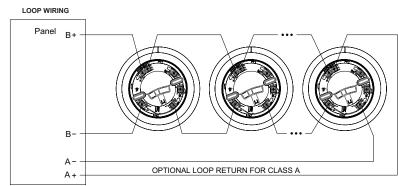

Specifications

Normal Operating Voltage	15 to 30 VDC
Maximum Alarm Current	3.2 mA (LED on)
Standby Current	160 μA (LED flashing)
UL/ULC Listed Temperature Range	32°F to 100°F (0°C to 37.8°C)
Operating Temperature	15°F to 120°F (-9°C to 49°C)
Humidity	10% to 93% Non-condensing
Wiring range on terminals	22 to 12 AWG
Diameter	4.25"
Height	1.75"

Detector LED colors		Description	
RED (Steady on)		ALARM condition	
GREEN (Flash)		NORMAL condition	
AMBER (Steady on)		FAULT condition	
Sensitivity Level	Typical		Note
Hot	1.25%/FEET		Most sensitive level
Medium	2.50%/FEET		
Cold	2.75%/FEET		Least sensitivity level

Detector Wiring: For complete installation instruction refer to LT-6711 User Manual

Ordering Information

Model	Description
MIX-4011	Photoelectric Smoke Detector (Non-Isolated)
MIX-4011-ISO	Photoelectric Smoke Detector (with short-circuit isolator)
MIX-4001	6" Detector Base
MIX-4002	4" Detector Base
MIX-4003-S	Sounder Base
MIX-4003-R	Relay Base
MIX-4003-LF	Low Frequency Sounder Base
MIX-4090	Addressable Device Programmer
