Description

The ceiling speaker SPP-104 and speaker strobe SPPS-104 Series offer an audible/visual solution that delivers exceptional energy efficiency in a compact design.

Utilizing advanced LED technology, SPPS-104 Series provides a much lower current draw than xenon bulb technology. This in turn allows for more devices on a notification appliance circuit while reducing the number of external power supplies required.

When flash synchronization is required, the built-in synchronization on the control unit can be used or can be done through a synchronization module.

The SPPS-104 speaker strobes and the SPP-104 speakers are designed to meet NFPA 72, UL1480, UL1638, UL 1971, ULC S541, ULC S526 requirements for visual and audible notification appliance.

Features

- Advanced LED technology provides superior current draw performance across the entire range of candela settings
- 25Vrms or 70.7Vrms Speaker only or Speaker Strobe options
- Speaker power settings: ¼, ½, 1, 2 W
- Field selectable candela settings for SPPS-104-25/70 models: 15, 30, 75, 110, 125, 15/75 cd
- High candela option for flexibility
- Field selectable candela settings for SPPS-104-25/70H (high candela) models: 50, 75, 90, 130, 185, 15/75 cd
- Synchronize via option module or by panel with MGC protocol
- Spacer (SPKC-W) option for mounting to 4 inch square by 2 1/8" electrical box.
- Tamper proof option settings
- Red or white option
- Enhance emergency communication with white models featuring an 'ALERT' insert

Benefits

Energy Efficient: Ultra low current draw (33mA at 15cd). Allows for a higher capacity of notification devices per circuit and eases external power supply requirements.

Flexibility: Multiple language plastic inserts included with speaker strobes (English/French/Spanish)

Simple: Trim plate/adaptor kit brackets (SPKC-W) for standard 4" back box use in retrofit applications

Specifications

Operating temperature	0°C to 50° (32°F to 122°F)
Humidity range	0% to 93%
Strobe flash rate	1 Hz (1 flash per sec.)
Nominal strobe voltage	Regulated 24VDC/VFWR
Operating voltage range	16-33 VDC/VFWR
Nominal speaker voltage	25V or 70.7Vrms
Speaker Size	3.31" deep (max), 7" diameter
Power Setting	¼, ½, 1, 2 W
Speaker Frequency Range	400-4000 Hz
Terminal wire gauge	12-22 AWG
Optional spacer	SPKC-W
