

Description

MGC's SPPS-204-WP Weather Protected Speaker/Strobes are a robust and reliable solution designed to thrive in challenging environments. Crafted for outdoor installations, the MGC's weather protected speaker/strobes are fortified against various environmental factors, ensuring unwavering performance in all conditions.

With a temperature range from -40°C to 66°C (-40°F to 151°F), the SPPS-204-WP Speaker/Strobes are engineered to withstand extreme weather conditions, making it a dependable choice for a wide range of outdoor applications.

The SPPS-204-WP Speaker/Strobes are designed for wall installation. Its design ensures easy insertion with minimal impact on the enclosure. This comprehensive package includes a high performance speaker/strobe, a durable backbox, and a transparent cover.

The distinctive red backbox and transparent cover not only enhance the device's aesthetic appeal but also serve a practical purpose, providing quick and easy identification for seamless recognition.

The MGC's Weather Protected Speaker/Strobes are designed to meet UL1480, UL1638, UL 1971, and ULC S541, ULC S526 requirements for visual and audible notification appliances.

Features

- Outdoor-ready design with protection against environmental factors
- Reliable Performance in extreme weather conditions
- Operating Temperature Range from -40°C to 66°C (-40°F to 151°F)
- Advanced LED technology provides superior current draw performance
- Standard and High candela settings in one unit to meet virtually any application
-15, 15/75, 30, 75, 110. 185 cd
- Multiple Speaker Power settings (Watts)
- 1/4 W, 1/2 W, 1 W and 2 W
- Synchronization available with MGC Protocol or through external sync module for compatibility with any UL/ULC FACU or PSU
- Listed for Wall Mounting
- User friendly candela selector tab on device
- Removable side tabs for different types of installations
- Designed for easy installation with minimal impact on the enclosure
