

Connecting the MCS-2010 Keypad

Connect the MCS-2010 in the following sequence:

- Ground wire
- +12V
- Sync
- OUT
- IN
- Loop connections

If you are **disconnecting** a MCS-2010, remove the wiring in the opposite sequence:

- Loop Connections
- IN
- OUT
- Sync
- +12V
- Ground

CAUTION: If the MCS-2010 is to be connected when the power is on the wiring, extra care must be taken when connecting the +12V wire and in handling it during preparation connection.
