

DO-CR3 Post Office Lock Adapter Installation Instructions

OPERATION

The DO-CR3 Post Office Lock Adapter permits the postal worker to use their key to enter the building (when used with Post Office supplied lock).

INSTALLATION

1. Place the Postal Lock into the Postal Lock Chassis and secure it with the four #8-32 nuts provided. Ensure that it will engage the Postal Lock Switch.
2. Connect the 2 wires (22 AWG) from the Postal Lock Switch to the access control unit (See the control unit's documentation for instructions).
3. Use four screws to secure the Postal Lock Chassis assembly to the wall.
