

## TX3 Nano Resident Operating Instructions

- **Scroll Up and Scroll Down:** Press to scroll the list of residents up or down. Press and hold to scroll quickly.
- **Call, Hang Up and Select:** Press to call the selected resident. Press again to disconnect the call. Press this button to select a group or subgroup of residents.
- **Home and Back:** Press to move to the top of the list of residents. When the residents are in groups, press again to move up to the enclosing subgroup or group.

## Answering a Call from the TX3 Nano

The TX3 Nano operates with your existing telephone. Your guest selects your name on the electronic directory on the TX3 Nano, causing your telephone to ring.

When you answer your telephone, you will be in communication with your guest.

### Unlock the main door

- Press **9** on your telephone keypad (unless this key has been changed by the system administrator).

### Refuse entry

- Hang up **or** press **4** on your telephone keypad.
