

## Installing the QMB-6000 Amplifier Card Cage

The QMB-6000 Amplifier Card Cage can be installed in two enclosures, the BBX-FXMNS-6000 and the QBB-6000.

The card cage has four mounting holes and is packaged with four hex nuts for fastening. Refer to Figure 1 for mounting hole locations.

### QMB-6000 AMPLIFIER CARD CAGE

Place card cage over the four studs located in the top left section of the BBX-FXMNS-6000 backbox and/or the BBX-6001. Refer to Figure 2 and 3 for the mounting locations within the enclosures. Fasten the amplifier card cage to the backbox using the four Hex nuts provided with the QMB-6000.
