

# Replacement display for TX3-TOUCH-S15-E and TX3-TOUCH-F15-E

## 1. Parts List:

- RPL-SC-420009 - Replacement 15 Inch TX3 Touch Screen Only (-E models)
- Power cable
- USB cable
- HDMI cable

## 2. Shut down the Touch Screen

1. Press the On/Off switch located at the bottom of the inner chassis.
2. After the TX3 Configurator and Windows have finished shutting down, disconnect power from the Touch Screen.

On/Off Switch

## 3. Remove the old display

1. Disconnect the cables from the current display.
2. Unscrew the 4 nuts that hold the brackets to the door. See Figure 1.

**Figure 1 Display on door (back view)**

3. Unscrew the 4 screws that hold the 2 brackets to the display. See Figure 2.

**Figure 2 Display Assembly (back view)**

#### **4. Attach the new display**

**Note:** Use only the screws that you removed in the previous step to attach the brackets to the display. Using different screws might damage the display.

1. Secure the new display to the brackets with the 4 screws. See Figure 2.
2. Attach the new display to the door with the 4 nuts. See Figure 1.
4. Connect all the cables to the new display. Use the cables included with the display, or use the existing cables.
5. Turn on the Touch Screen.
