TX3-T10TR Installation Instructions

Installation

Mount the trim ring on the wall using four appropriate screws. Then install the TX3-T10BB backbox within the opening of the trim ring using one of two installation methods: surface installation or flush installation.

Surface Installation

1. Follow the instructions in LT-6766 (TX3-T10 Installation Manual) on wall cutout and electrical box required.
2. Follow the instructions in LT-6766 to attach the electrical box to TX3-T10BB.
3. Attach the trim ring to the wall using four appropriate screws.
4. Install TX3-T10BB within the opening of the trim ring with the four washers provided with TX3-T10BB and four fasteners appropriate to the wall. Follow the instructions in LT-6766 (TX3-T10 Installation Manual).

Flush Installation

1. Follow the instructions in LT-6766 (TX3-T10 Installation Manual) on wall cutout and electrical box required.
2. Follow the instructions in LT-6766 to attach the electrical box to TX3-T10BB.
3. Attach the trim ring to the wall using four appropriate screws, ensuring the opening of the trim ring aligns with the wall cutout.
4. Install the backbox within the opening of the trim ring. Follow the instructions in LT-6766 (TX3-T10 Installation Manual).

For detailed instructions on installing the backbox, please refer to LT-6766 (TX3-T10 Installation Manual) on the Mircom website and the USB flash.
