

LT-9283 Instructions for Installing GK-008

For ideal sound quality on the TX3 Touch Screen, the GK-008 foam strips must be attached to the speaker housing.

1. Open the TX3 Touch Screen chassis.
2. Remove the paper backing from **one** side of each of the four GK-008 foam strips in order to expose the adhesive.
3. Attach the exposed sides of the four GK-008 foam strips to the speaker housing as shown in the following figure.
