## Elevate Access Control with Mircom's 10" Touch Access System!

Discover a new era of access control with Mircom's innovative TX3-T10, designed to deliver a visually stunning and intuitive user experience.

- **Access Control Redefined:** Mircom's TX3-T10 redefines access control, offering a seamless blend of style, functionality, and security for the modern world.
- **Versatile Applications:** Perfect for condominiums, apartment buildings, office spaces, gated communities, and industrial buildings, the TX3-T10 offers a fully customizable solution for occupant and visitor access control.
- **Dynamic Touch Display:** The 10" full-color touch display offers expansive viewing angles, providing a modern and captivating interaction for visitors and occupants alike.
- **Weather Resistant:** Built with a weather-resistant enclosure, the TX3-T10 thrives in various environmental conditions, providing reliability and durability.
- **Fully Customizable:** Tailor the system to your unique needs with a range of customizable features, making it the perfect fit for diverse settings.
- **Robust Operating System:** Powered by a reliable and proven operating system, the TX3-T10 stands out as the most feature-rich system on the market, ensuring stability and security.
- **Easy Installation:** Experience hassle-free installation with multiple mounting options and a user-friendly interface.

## Unparalleled Features for Seamless Interaction.

### 10.1" AUTOMOTIVE GRADE SCREEN

- Enjoy an immersive experience with our 10.1" full-color touch display featuring ultra-wide viewing angles and high brightness, ideal for outdoor applications.
- The 4mm front glass ensures durability and clarity, providing a crystal-clear interface.

### INTUITIVE CALL INTERFACE

- Effortlessly navigate through calls with call buttons and a scrolling name directory, simplifying the user experience.

### AESTHETIC OPTIONS

- Choose from two mounting options - Flush mount or Surface mount backbox, and two stylish colors - Silver or Space Gray, seamlessly blending with any architectural setting.

### DURABLE & NEUTRAL DESIGN

- Constructed with a Full Aluminum front face finish, the TX3-T10 boasts a durable and neutral design that complements any decor.

### ADVANCED AUDIO CAPABILITIES

- Speak and be heard clearly with the speaker and noise-canceling microphone, enabling seamless two-way audio communication.

### VERSATILE CALLING OPTIONS

- Make calls over PSTN for traditional communication or one-way video calls over VoIP, ensuring flexibility in your communication strategy.

### COMPREHENSIVE SECURITY FEATURES

- Elevate security with a built-in proximity card reader and the option to connect an external card reader.
- Ensure peace of mind with advanced access control features, providing a secure environment for both occupants and visitors.

### MULTIMEDIA INTEGRATION & MEDIA PREVIEW

- Capture moments with the high-definition video camera and scan QR codes effortlessly, expanding the functionality of your communication device.
- View video feed from the entry system before answering a video call.

### CUSTOMIZABLE THEMES & WELCOME SCREEN

- Tailor your experience with easy customization using two themes (Light and Dark).
- The welcome screen is a series of configurable screens that can be personalized or set as a screensaver slideshow.

### KEYBOARD LAYOUTS

- Choose from two built-in keyboard layouts: Full QWERTY or QWERTY (English & French) + Numpad, catering to diverse user preferences.

### INSTRUCTIONAL SUPPORT

- The Help button activates instructional videos, providing easy-to-follow guidance to visitors.

### MULTI-PROTOCOL SUPPORT

- Seamlessly connect through Auto Dialer (ADC/PSTN), No Phone Bill (NSL), and Voice over IP (SIP) for a versatile communication experience.

### INDUSTRY-APPROVED

- Industry Canada approved, ensuring compliance with regulatory standards.

### POWER OPTIONS & ELEVATOR RESTRICTION CAPABILITY

- Choose flexibility with Power over Ethernet (PoE+) or an external power supply (12-48 VDC / 25 W).
- Elevator restriction capability is available for buildings requiring enhanced security.

### CONVENIENT PROGRAMMING AND OPERATION

- Easily program the TX3-T10 with the TX3 Vision configurator, and operate through Ethernet connection ensuring a seamless integration into your system.

### WHISPER-QUIET OPERATION

- Enjoy a fan-less operation that is whisper-quiet, minimizing distractions in any environment.

### SEAMLESS MEDIA LOADING

- Load media content effortlessly via the configurator in JPEG and PNG formats.

## Elevate Your Communication with the TX3-T10 - The Future of Secure and Smart Interaction!
