

# SELF-STORAGE PROTECTION

**Mircom**<sup>®</sup>

# Why Use Different Suppliers When You Can Use One?

Mircom offers a robust line of integrated Communications, Access Control, Security & Fire Solutions.

## OUTDOOR & MOBILE ACCESS CONTROL

### TX3-NANO / MiEntry App

#### Benefits

- Bluetooth Reader for simple, secure and effective Access Control at front gates or interior doors
- Weather proof voice entry panel
- MiEntry Mobile Application allows (the option for) remote access control
- Users can call the superintendent, manager or any saved person using the panel. They can have a video call

## EMERGENCY HELP

### TX3-EMER – Weather proof emergency panel

#### Benefits

- Allows users call cell phones, IP phones or any SIP compliant device from the premises in case of an emergency
- Can be installed indoors or outdoors
- LCD display visible in low light or dark areas

## FLEXIBLE & SCALABLE ACCESS CONTROL

### TX3-CX-1 & TX3-CX-2 & Wireless Door Access

Access controls panels and wireless door access

#### Benefits

- TX3 Line of Door Access Controllers (1, 2, 4, 6 & 8 door kits)
- Full line of compatible readers & keypads
- Wireless Transmitters & Receivers (with remotes) for gates, doors and other hard to reach areas
- Elevator restriction module for higher levels of security by floor or section
- System supports wireless locks facilitating the retrofit installations

## VIDEO MONITORING GATEWAY

### TX3-InSuite Touch Gateway

#### Benefits

- TX3-InSuite Touch Gateway and Unified Building Solution (UBS) provide a fully integrated portal
- Ideal for Administration/Security desks to allow viewing of all Mircom events and on-site CCTV cameras

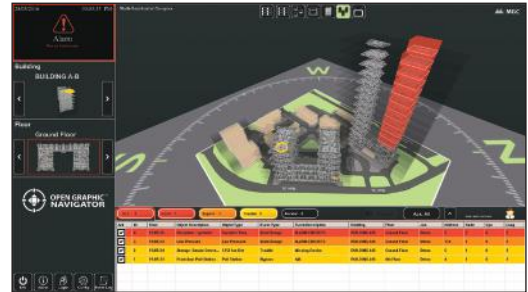

## MULTI-SITE INTEGRATION

### OpenGN (Open Graphic Navigator)

Security and Fire Alarm Graphic Monitoring Software

#### Benefits

- Software offers real-time 2D or 3D event monitoring of single or multiple buildings and sites
- Easily scalable, customizable, and configurable
- Full integration of key Mircom sub-systems with customizable and interactive sensor/access points
- On-site or Off-site with email notification of events
- Extensive event logging with reporting
- UL Approved

## SIMPLE CLIENT ADMINISTRATION

### TX3-Configurator

#### Benefits

- Included with the purchase of TX3 Access Control hardware
- Configure all devices using a single software
- TX3 Configuration Software allows local or remote control of Client access (i.e. non-payment, temporary access, etc)
- Real-time event logging and display of access related events
- Application Programming Interface (API) for future integration with third party Accounting Software

## ENERGY MANAGEMENT

### OpenBAS (Open Building Automation System)

Enterprise Building Automation System

#### Benefits

- Multiple facility Power Metering, Lighting, HVAC, and VAV Fan & Coil automation
- UL listed Controllers and supporting accessories with simple integration
- Monitor energy usage in real-time and drive costs down immediately

## FIRE PROTECTION

Mircom offers a full range of Addressable and Conventional Fire Alarm Controls & Accessories

#### Benefits

- Reliable, flexible and expandable
- Networkable and fully integrated with other Mircom solutions
- Easy upgrades and service - No down time when uploading new programs
- Code Compliant (UL, ULC, FM, CSFM, NYC FIRE DEPT.)

### About Mircom®

Founded in 1991, Mircom is a global designer, manufacturer and distributor of Intelligent Building Solutions. Reaching customers in over 100 countries worldwide, Mircom’s portfolio includes: fire detection & alarm, communications & security, mass notification, nurse call, and building automation & smart technologies. Mircom’s vision is to make buildings worldwide safer, smarter, and more livable.

Our global network of dedicated Sales and Service Offices, known as Mircom Engineered Systems, allows us to be a full solution provider. Through Mircom ES, we’re able to provide and fully service our line-up of innovative and advanced solutions which are scalable to satisfy diverse user demands, from small & mid-size buildings to the world’s most complex applications.
