COMMERCIAL

Why Use 10 Different Suppliers When You Can Use One?

Mircom offers a robust line of commercial and industrial solutions required to integrate your intelligent building solutions on one unified platform.

TX3 InSuite™ Touch Gateway

The most versatile and full featured solution for multi-dwelling units

The intuitive TX3 InSuite Touch Gateway provides a built-in camera, speakers and microphone to allow two-way communication and camera viewing. Mircom's TX3 InSuite Touch Gateway and Unified Building Solution combine to create a new platform for building and community services. This solution enhances user convenience, security, & safety in a gateway capable of future add-on technologies and benefits.

Communications & Voice Entry Systems

Mircom offers a complete line of Voice Entry, Building Automation, and Smart Condo solutions. Our Communications & Voice Entry Systems are protecting lives and making buildings safer in thousands of facilities across the globe.

For example, Mircom's new 22" Touch Telephone Access System (North America's largest Integrated Touch Screen) is designed to provide a visually stunning and intuitive user-experience.

Access Control

Mircom is the manufacturer of choice for high-rise residential security systems, with products ranging from door access controls, keypads, credentials & readers, exit control devices and electronic strikes & locks.

Emergency Solutions

Keep your property and residents safe with Mircom's line of emergency phones and help stations.

Graphic Annunciator

The Most Powerful 3D Graphics Tool for Annunciation, Monitoring and Control

Open Graphic Navigator (OpenGN) is a centralized fire alarm management system that provides building or campus monitoring. As a powerful integration tool, OpenGN allows operators to monitor remote sites from multiple workstations located anywhere in the world.

Building Automation System

Mircom's OpenBAS (Building Automation System) offers a wide variety of controllers and supporting accessories that can be easily integrated into any industrial, commercial, or residential application. OpenBAS delivers HVAC, Lighting, Power Metering, and VAV Fan & Coil control to optimize comfort and energy management within a facility. OpenBAS controllers are programmable and configurable with advanced functions to accommodate any custom application.

Fire Controls

Ideal for high-rise buildings, Mircom's FleX-Net V12 supports Advanced Protocol (AP), a high speed communication protocol that greatly increases the speed of communication between the intelligent devices. 159 Sensors & 159 Modules can now be placed on a single SLC Loop. FleX-Net V12 also supports the COSAP FireCO Detector and APB200 Series Sounder bases.

Fire Devices

Mircom manufactures a complete range of advanced UL / ULC / FM listed conventional and addressable fire alarm systems, detectors, signaling devices, accessories and service tools for any new or retrofit application.

Infrastructure and Integration

- CCTV
- Communication Core

Voice Evacuation

Mircom's multi-channel audio voice evacuation systems offer emergency communications with zoned voice paging and firefighter telephone support.

The QX-mini is an emergency and fire alarm audio system designed to provide notification for small to medium applications. The QX-mini supplies 30W for audio output and 5A for Notification Appliance Circuits (NAC). The optional 30 Watt Amplifier Module increases audio output to 60W.
